1. In accordance with the oral request from yourself and Mr. OPC/FE, we have reviewed the problem of whether we may enter into an agreement with a retired Foreign Service Officer for preparation and submission of a report for which we would pay a flat sum as a fee.

2. It is our opinion that there is no prohibition against such an arrangement, provided there is no requirement for supervising Government employees or working in a Government position while engaged on the project. We believe that an appropriate contract can be made in the case of Mr. which will achieve your purpose without violating the dual compensation laws. To assure protection for Mr. please have any such agreement reviewed by this office prior to execution.
